- Structural (Civil) Design
- Pavement/Section Design / Foundation Design
- Grading Plans & Earthwork Plans
- Erosion Control & SWPPP Plans
- FEMA Disaster Response
- OSHA Excavations
- Civil 3D Drafting & Modeling
- Permitting & Compliance Support
- Bidding & Construction Services
- On-Call Engineering

**NEXCIV Engineering LLC** is a Texas-based civil engineering firm offering complete design and consulting services across Texas, New Mexico, and Colorado. We specialize in practical, buildable solutions rooted in responsiveness, clarity, and precision. Our work supports private developers, municipalities, architects, and fellow engineering firms.

We bring nearly two decades of experience in public infrastructure and land development civil work. Whether leading full design efforts or integrating with existing project teams, NEXCIV adapts to meet the needs of each client—delivering with speed, accuracy, quality and long-term value in mind.

Our foundation is built on real-world field experience, sharp design tools, and an adaptive approach to complex civil challenges.

## The Technical Expertise

Founded by Teodoro Cano Mota, P.E., NEXCIV brings deep experience across a wide range of project types, from transportation and site development to public facilities and energy infrastructure.

Mr. Cano Mota holds PE licenses in Texas, New Mexico, and Colorado, and is known for his detail-oriented, highly collaborative approach to engineering design.

## Fundamental Information

Entity Type: Limited Liability Company

TBPELS Firm No.: F-27584

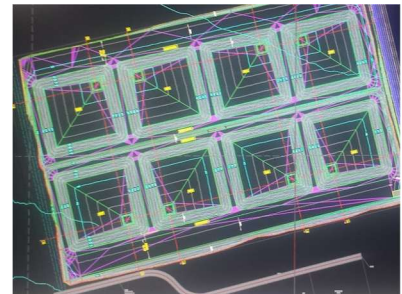

PE No.: TX 134276 | NM 25207 | CO 0065175

EIN: 39-2808529

Certifications: Active Member – ACEC (American Council of Engineering Companies)

## Selected Projects and Clients

Hampel Oil Facility – Hampel Oil – NM  
CES – City of Lovington Main St. Waterline Replacement  
CES – Alabama Street Reconstruction – Lea County – NM  
City of Eunice On-Call Water, Wastewater, and Water Rights  
Lincoln County On-Call Engineering Services  
Eddy County On-Call Road Department Services  
Eddy County FEMA Flood Response  
Bureau of Land Management (BLM) Site Improvements  
NM 31 – US 285 Utility Plan  
Southeast Loop – Eddy County – NM  
NMDOT CN 2102160 US 285 Reconstruction – NMDOT – NM  
Southeast Loop Bypass – Eddy County – NM  
McDonald Road Bridge – Eddy County – NM  
Standpipe Road Reconstruction – Eddy County – NM  
Covenant Health Hobbs – Covenant Health  
Hobbs Regional Hospital  
Hobbs Middle School  
Hobbs Heizer Middle School  
Sorrento Apartments – Lea County – NM  
Carlsbad Caverns Visitor Center  
Corral Fly Water System  
Roadway Design 30+ public roadway and flood control projects in New Mexico and Texas.  
HTeaO Franchise RVA Architecture – 10+ locations across Texas.
